That's fine. Angela, please file this e-mail... Thanks.

Vicky, Jerriann and I want to modify the due date for the Chapter 2 and 3 amendment for Soldier Canyon. We want the due date to be changed to Jan.30. The extended due date will allow Vicky to do the following:

Include a narrative in Chapter 5 that the 20,000 CY of excess fill will be spread over the mine site instead of being shipped to the refuse pile.

Remove all maps that deal exclusively with the refuse pile.

Stickers for all maps that must be keep and include the refuse pile. The sticker would say that the refuse pile area has been removed from the disturbed area.

Remove all references to the refuse pile in Chapter 5 and all other chapters.

Remove all references to the refuse pile from Chapter 2 and 3.

Include a narrative that a refuse pile site was approved but has since been withdrawn.

Please let me know if that change in the due date is OK.

**CC:** Angela Nance
